EDUCATION

The University of Tennessee, Haslam College of Business

Knoxville, TN

Bachelor of Science in Data Science

May 20XX

Concentration: Technical Communication

Cumulative GPA: 3.7/4.00

WORK EXPERIENCE

thredUp

Oakland, CA

Data Science Intern – Product Analyst

June 20XX – August 20XX

- Conducted exploratory data analysis on product datasets under senior data science team guidance, uncovering insights that informed product strategy decisions at thredUp's scale
- Mined and analyzed clickstream and session data using Python and SQL to uncover user navigation patterns, delivering insights that guided search and browse UX optimizations on thredUp's e-commerce platform
- Collaborated cross-functionally with product managers, software engineers, and data engineers to align analytical findings with business objectives and ensure data pipelines supported product analysis needs

LEADERSHIP EXPERIENCE

Data Science Club

Knoxville, TN

Treasure

August 20XX - Present

- Served as the primary point of contact between club leadership, university administration, and external partners ensuring timely and professional correspondence
- Contributed to the strategic growth of the club by streamlining administrative processes, reducing planning overhead and improving officer team efficiency
- Maintained and organized club records, meeting minutes, and member communications for a 30-member data-science organization, ensuring seamless information flow across leadership and general members

PROJECT EXPERIENCE

Data Management and Visualization

Knoxville, TN

Data Analyst (Course Project)

January 20XX

- Translated complex statistical findings into clear, audience-friendly visualization using Tableau, presenting insights to a class audience of 50 peers
- Applied critical thinking to troubleshoot and optimize underperforming SQL queries, reducing runtime, and improving team productivity during the analysis phase

SKILLS

- Familiar with Python and SQL

HONORS AND AWARDS

- Deans list Spring 20XX, Fall 20XX, Spring 20XX
